[OMB Control No. 9000-0090]

# Proposed Collection; Comment Request Entitled Rights in Data and Copyrights

**AGENCY:** Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of request for public comments regarding an extension to an existing OMB clearance (9000–0090).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning Rights in Data and Copyrights. The clearance currently expires on March 31, 1998.

**DATES:** Comments may be submitted on or before January 20, 1998.

FOR FURTHER INFORMATION CONTACT: Jack O'Neill, Federal Acquisition Policy Division, GSA (202) 501–3856.

ADDRESSES: Comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, should be submitted to: FAR Desk Officer, OMB, Room 10102, NEOB, Washington, DC 20503, and a copy to the General Services Administration, FAR Secretariat, 1800 F Street, NW, Room 4037, Washington, DC 20405. Please cite OMB Control No. 9000–0090, Rights in Data and Copyrights, in all correspondence.

### SUPPLEMENTARY INFORMATION:

# A. Purpose

Rights in Data is a regulation which concerns the rights of the Government, and organizations with which the Government contracts, to information developed under such contracts. The delineation of such rights is necessary in order to protect the contractor's rights to not disclose proprietary data and to insure that data developed with public funds is available to the public.

The information collection burdens and recordkeeping requirements included in this regulation fall into the following four categories.

- (a) A provision which is to be included in solicitations where the proposer would identify any proprietary data he would use during contract performance in order that the contracting officer might ascertain if such proprietary data should be delivered.
- (b) Contract provisions which, in unusual circumstances, would be included in a contract and require a contractor to deliver proprietary data to the Government for use in evaluation of work results, or is software to be used in a Government computer. These situations would arise only when the very nature of the contractor's work is comprised of limited rights data or restricted computer software and if the Government would need to see that data in order to determine the extent of the work
- (c) A technical data certification for major systems, which requires the contractor to certify that the data delivered under the contract is complete, accurate and compliant with the requirements of the contract. As this provision is for major systems only, and few civilian agencies have such major systems, only about 30 contracts will involve this certification.
- (d) The Additional Data Requirements clause, which is to be included in all contracts for experimental, developmental, research, or demonstration work (other than basic or applied research to be performed solely by a university or college where the contract amount will be \$500,000 or less). The clause requires that the contractor keep all data first produced in the performance of the contract for a period of three years from the final acceptance of all items delivered under the contract. Much of this data will be in the form of the deliverables provided to the Government under the contract (final report, drawings, specifications, etc.). Some data, however, will be in the form of computations, preliminary data, records of experiments, etc., and these will be the data that will be required to be kept over and above the deliverables. The purpose of such recordkeeping requirements is to insure that the Government can fully evaluate the research in order to ascertain future activities and to insure that the research was completed and fully reported, as well as to give the public an opportunity to assess the research results and secure any additional information. All data covered by this clause is unlimited rights data paid for by the Government.

Paragraph (d) of the Rights in Data-General clause outlines a procedure whereby a contracting officer can challenge restrictive markings on data delivered. Under civilian agency contracts, limited rights data or restricted computer software is rarely, if ever, delivered to the Government. Therefore, there will rarely be any challenges. Thus, there is no burden on the public.

#### **B. Annual Reporting Burden**

The annual reporting burden is estimated as follows: Respondents, 1,100; responses per respondent, 1; total annual responses, 1,100; preparation hours per response, 2.7; and total response burden hours, 2,970.

#### C. Annual Recordkeeping Burden

The annual recordkeeping burden is estimated as follows: Recordkeepers, *9,000*; hours per recordkeeper, *3*; and total recordkeeping burden hours, *27,000*.

## **Obtaining Copies of Proposals**

Requester may obtain a copy of the justification from the General Services Administration, FAR Secretariat (VRS), Room 4037, 1800 F Street, Washington, DC 20405, telephone (202) 501–4755. Please cite OMB Control No. 9000–0090, Rights in Data and Copyrights, in all correspondence.

Dated: November 13, 1997.

Meeting of the Presidential Advisory Committee on High Performance Computing and Communications, Information Technology, and the Next Generation Internet

**ACTION:** Notice of meeting.

SUMMARY: This notice sets forth the schedule and summary agenda for the next meeting of the Presidential Advisory Committee on High Performance Computing and Communications, Information Technology, and the Next Generation Internet. The meeting will be open to the public. Notice of this meeting is required under the Federal Advisory Committee Act. (Pub. L. 92–463).

DATES: December 9–10, 1997.

ADDRESSES: NSF Board Room (Room

1235), National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230.

PROPOSED SCHEDULE AND AGENDA: The Presidential Advisory Committee will
